“ Our 7 campuses are more than mere international offices — they are located in thriving technology parks where connections with their respective regions enable us to contribute to the development of the local economy while simultaneously offering all our students a truly global experience. ”

Alice Guillon

Dean & Executive President,
SKEMA Business School

Lille Campus

At the crossroads of Europe

This contemporary campus, spread across 20,000 m², is located in the heart of the city, in the Euralille district, which is the metropolis' business centre. Lille has one of the largest student populations in the country.

The Hauts-de-France region represents an attractive centre of economic life, home to the head offices of many groups and large companies. Multinational companies are located here; as it is the logistical centre of Europe.

Raleigh Campus

In the heart of the Research Triangle Park

This campus is located in the heart of North Carolina State University's Centennial Campus. Not far from the leading American technology park (Research Triangle Park), Raleigh brings together many innovative companies and research laboratories. Students have the opportunity to benefit from the infrastructures of one of the largest American universities. To this dense economic fabric, we can add many universities (16 in total) and an exceptional quality of student life...

Grand Paris Campus

A 30,000 m² hub on the banks of the Seine river

The new Grand Paris Campus opened in early January 2021 in an outstanding location on the banks of the Seine river, facing the Eiffel tower. Located in Suresnes, it is the anchor of the school's global strategy. Paris, a multicultural city and gateway to the European continent, amplifies SKEMA's international visibility, and this campus increases the school's capacity to 10,000 students. The Grand Paris Campus, hyperconnected and at the crossroads of many cultures, sets a benchmark for the usage of new technologies.

Belo Horizonte Campus

Brazil's Silicon Valley

Present in Brazil since 2015, SKEMA has developed very rapidly and is now opening a brand new 'city campus' located in Funcionários, one of the most active neighbourhoods in the heart of the city of Belo Horizonte, which is set to become the digital hub of the innovation ecosystem of the capital of Minas Gerais and its 2.7 million inhabitants. This urban campus represents a new milestone in the development of SKEMA's activities in Brazil, which involve the creation of, in addition to the business school's activities, the SKEMA Law School for Business — a law school announced in the SKY25 Strategic Plan.

Sophia Antipolis Campus

In the heart of the French Riviera

Sophia Antipolis, Europe's leading technology park, is a laboratory of 21st century companies and a highly-skilled community. Several major engineering schools, university establishments and research institutes are located here, creating intellectual vitality with a great student community. SKEMA benefits from the presence of over 1,500 companies around its campus.

Suzhou Campus

An innovative ecosystem, a showcase for China

The China campus is the result of a partnership with Suzhou Science and Technology Park. Nicknamed the Venice of the East due to its many canals and renowned for the beauty of its setting with its many traditional gardens, Suzhou is nonetheless one of the best cutting-edge technological centres in the world. Currently, it has more than two million inhabitants and is developing with a new district and two large technology parks where 20% of the 500 biggest companies in the world have set up an office.

Stellenbosch Campus

Destination: South Africa

SKEMA has set up its new campus within Stellenbosch University, an emblematic institution near Cape Town, South Africa. Students enjoy the many facilities of Stellenbosch University: a huge documentation centre, a music school, concert halls, an athletics stadium, several Olympic swimming pools and sports grounds.

Mastères Spécialisés®

Sélection

- La sélection se fait en deux étapes :
1. Dossier de candidature online
Le dossier permet d'avoir une première perception de la pertinence de la candidature.
 2. Entretien de motivation avec un jury via Skype.
L'entretien vise à comprendre les motivations du candidat et à analyser, au regard de son projet professionnel, la pertinence de la poursuite d'études. L'admission définitive du candidat est prononcée par le jury de sélection en fonction des résultats des deux étapes de sélection.

Etudiants internationaux, il est préférable de vérifier vos conditions d'éligibilité en nous contactant directement : admissionspostgraduate@skema.edu
